HAPPY HOLIDAYS

The year 2014 has been a great year for Chapter 80. Aircraft construction and completion has been high and young eagles flights have been consistent. Lets look at some of these a little more closely. Aircraft completions: RV-12(2), RV-7A, F1 Rocket, and Zenith 601XL.

Young Eagles: The young eagles program flew approximately 170 kids this summer along with 10 adults. The World Herald ran an article in the newspaper in October which contributed to a record day of 76 kids being flown. Not a bad year for the program.

The chapter acquired a large metal bending brake and shear during the year. The tool inventory continues to grow.

We no longer have a hanger at the Wahoo airport. The airport authority there need the hanger we were occupying so we sold items we no longer needed and packed up and moved the remainder. Most of it is distributed among various members hangars until we find a permanent home for them. If you need an item, contact the Tool Manager.

A reminder that 2015 dues are due by February 2015.

And last but by no means least, our Christmas Party was wonderful. We had a nice turnout and the food was delicious as usual. Our thanks to TW for managing the project and helping to close the year on a high note. The following page has pictures of most of the attendees.
